

COMPRESSOR REFRIGERATED CONTAINERS

Our smallest mobile refrigerated containers in terms of volume impress both due to their small footprint and their convenient operation via the display. They are particularly easy to carry with an adjustable shoulder strap and easy to use thanks to the practical hinged lid.

The TB31A, TB41A and TB51A models offer the best possible convenience. Highly efficient compressors, a special power-saving function (ECO), rapid turbo cooling (MAX) and a multi-functional electronic digital display including a three-stage battery monitor permit simple use and efficient operation. The TB31A, TB41A and TB51A models can also be operated via a 230-volt connection.

COMPRESSOR REFRIGERATION UNITS

With the vehicle-specific compressor refrigeration units from Eberspächer, the existing thermo boxes in the respective vehicle models can be quickly and easily converted into refrigerated compartments – without sacrificing storage space and ensuring particularly convenient use.
